

This is your **Kitchen Assistant.**[™]

PVD28HYYFS (Standard-Depth)

PXD22HYYFS (Counter-Depth)

Take the guesswork out of groceries with the **GE Profile 4-Door Refrigerator with Kitchen Assistant[™]**. Simplify meal planning, manage shopping lists, and reduce food waste with a virtual assistant in the kitchen to keep your ingredients fresher, your meals more inspired, and your kitchen effortlessly organized. This is more than a refrigerator—it's a game changer.

KEY FEATURES & BENEFITS

Scan-to-List Bar Code Scanner

The built-in, dispenser-mounted bar code scanner lets you instantly add any UPC-coded item to your shared digital grocery list. Instead of trying to remember what you ran out of during the week, simply scan items as you finish them—everything from olive oil to laundry detergent.

FridgeFocus[™] Fresh Food Camera

FridgeFocus[™] is a ceiling-mounted camera dedicated to your crisper drawers, giving you a real-time look at your produce from anywhere. This innovative feature helps prevent duplicate purchases and reduce food waste.

Inspired Recipe Content

Built-in recipes from Taste of Home and more help inspire meal ideas and relieve the "what's for dinner?" stress. Recipes are concise and regularly updated. Best of all, you can instantly add recipe ingredients to the same shared shopping list you're building throughout the week.

Precise Fill and Hands-free Autofill Technology

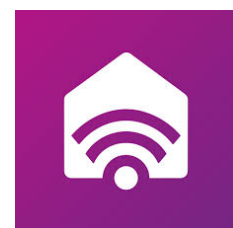

Precise Fill allows you to dispense exact amounts of filtered water—perfect for cooking and baking without measuring cups. Hands-free Autofill uses sonar sensors to fill your bottle hands-free, letting you multitask and return to a perfectly filled cup.

Connect to SmartHQ[™]

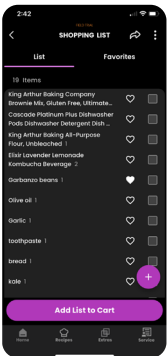

With WiFi powered by SmartHQ[™], control the brightness of the LED Light Wall, enable Turbo Cool and Turbo Freeze settings, receive alerts, and more with the Kitchen Assistant touchscreen or in the app.

The GE Profile **4-Door Refrigerator with Kitchen Assistant™** takes your kitchen to the next level with features to organize, streamline, and add creativity to your meals.

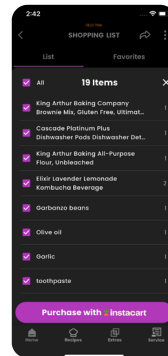

Hey HQ, add two red bell peppers to my shopping list

With the wake word "Hey HQ", add grocery items to your list hands free. Items can also be added by typing via the screen or through the SmarthQ™ app.

Scan-to-list

The built-in, dispenser-mounted bar code scanner lets you instantly add any UPC-coded item to your shared digital grocery list.

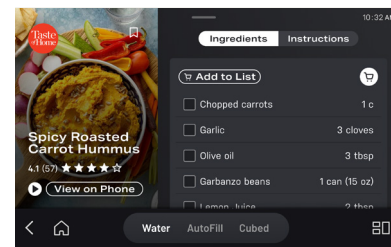

Scan-to-shop with Instacart

By partnering with Instacart, grocery shopping is even easier. Once your shopping list is complete in the SmarthQ™ app, simply place your order and have groceries at your door in no time.

FridgeFocus™ Fresh Food Camera

- This fresh food camera captures still images of the crisper drawers, giving users visibility into what produce they already have while shopping or planning meals.
- Images are accessible through the SmarthQ™ app.
- A privacy shutter is available for those who prefer to pause the camera, and it can be turned on or off at any time.

Recipe App Integration

Feeling in a rut with your meals? Let Taste of Home, Flavorly, and other partners boost your creativity in the kitchen with recipes for anything from appetizers to desserts. Easily add the ingredients you need to your shopping list to make grocery shopping less of a hassle.

Additional digital features include Hands-free Autofill, Precise Fill, Water Center, Custom Backgrounds, Fridge & Freezer Command Center, Weather Widget & more!
